Proposed Change to Health and Safety Plan

Re: Volunteers

Rationale: The benefit of allowing volunteers to enter the school environment has always been realized by the school. The loss of this valuable resource during the pandemic was necessary. At this time we feel the mitigation in place can safeguard our students and allow for the return of volunteers.

Current language per the August 2021 Approved Plan

- Volunteers not be permitted on campus until further notice

Proposed language to be effective upon adoption

- Volunteers will be permitted on campus under the following stipulations:
 - Meets all previously stated requirements of RA Volunteers [Policy 916](#)
 - A Volunteer submits proof of vaccination from COVID-19 prior to a volunteer assignment [verification](#)
 - A Volunteer participates in daily screening questions before entering the school building at each visit
 - A volunteer comes at the assigned time for a specified activity or task
 - A volunteer will participate in assigned training sessions to be provided by the principal

Approved November 18, 2021

Signed: _____
